this book aims to develop theoretical frameworks of the phenomena of internationalisation and globalisation and identify related ethical moral political and economic issues facing mathematics and science educators it provides a wide representation of views some of which are not often represented in international publications this is the first book to deal with issues of globalisation and internationalisation in mathematics and science education

this book focuses on the development of research in mathematics education cultures and its products from the perspective of local educators it consists of contributions from mainland china indonesia korea macao singapore the philippines and turkey this book examines the development of the culture of research in the respective countries and also reviews the research conducted in the recent past in mathematics education it takes a critical stance through identifying the various accomplishments and identifying challenges for the future of research in terms of its diversification and quality divided into two sections the first section considers factors around the development of a research culture in the respective countries by focusing on the means used to develop research expertise and quality the second section consists of overviews of the area of research and methodologies conducted in mathematics education in the various countries with the intention of highlighting the research topics conducted as well as discussing omissions of such research

the notion of change is central to this book across the globe there exists a pressing need for transformation in the way teachers teach in the manner by which learners learn and in our approach towards defining literacy in the 21st century historically the term literacy has been used to primarily denote reading and writing abilities a designation which is today largely considered both quintessential and overly simplistic the field of literacy like many others within the realm of education has a tendency to evolve and shift from one paradigm to another vacillating between the demands of globalisation and the implications brought forth by the advent of new technologies reading and writing communication in essence is happening in very different ways and via varied avenues blogs podcasts online news and tablets coupled with countless applications such changes are increasingly borderless and rapidly accelerating and are bound to influence the nature of literacy itself as well as how it is perceived in diverse contexts in different parts of the world this calls for a reorientation with regard to how researchers educators and stakeholders view literacy in today s terms

every four years beginning in 1984 the mathematics education research group of australasia merga produces a review of australasian research in mathematics

education the authors of the chapters in this volume have summarised and critiqued research conducted during the period 2004 2007 the research foci for the period are reflected in the chapter titles working under tight funding opportunities and the shadow of demanding research accountability measures the research undertaken has nonetheless been rigorous far ranging and at the cutting edge in bringing this regular review of the best of australasian mathematics education to a broader international audience for the first time readers will recognise the outstanding contributions made by australasian mathematics education researchers and the potential their findings have to inform and direct future directions in the field
